AC 149

(9) Data necessary for identification of the product type:

The Electrifier Shepherd AS is a source of electric impulses that power an electric fence intended for cattle grazing and for protecting field and forest crops from damage by animals. Electrifier can also be used to power electric trainers installed in breeding barns. Enclosure of the electrifier is screwed together with four galvanized screws 3.5x16 mm, one in each corner of the housing.

The shape of edges of both parts of the enclosure provides protection against dust and water getting inside, and additionally, to increase tightness, a layer of universal silicone is used.

The Electrifier Shepherd AS has IP54 degree of protection.

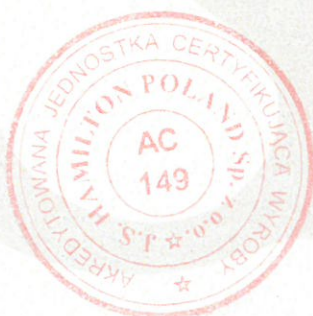

(10) Basis for issuing the certificate:

PN-EN 60529:2003

(11) The certificate is valid only if the obligations contained in the certification agreement are respected.

(12) Document history:

- Certificate No. JSHP/2/CZ/2026 of 13.01.2026 - issue 0.
